DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 & 22-30 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability resides in the overall structure of the device as recited in independent claims 1, 11, 17, 18, 23 & 26, and at least in part, because claim 1 recites: "a first inner volume; a second inner volume and a plurality of convective heat transfer elements on both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest] the limitations as recited above.

claim 11 recites: "a first inner volume; a second inner volume and a plurality of convective heat transfer elements on both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest] the limitations as recited above.

claim 17 recites: "a first inner volume; a second inner volume and a plurality of interval convective heat transfer elements extending from both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest] the limitations as recited above.

claim 18 recites: "a first inner volume; a second inner volume and a plurality of integral convective heat transfer elements extending from both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest] the limitations as recited above.

claim 23 recites: "a first inner volume; a second inner volume a plurality of convective heat transfer elements on both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest the limitations as recited above.

claim 26 recites: "a first inner volume, a second inner volume and a plurality of convective heat transfer elements on both inner and outer surfaces thereof."

Prior Art of Record fails to teach and/or fairly suggest] the limitations as recited above.

Therefore, claims 1-20 & 22-30 are allowed over the prior art of record.
